WHAT TO BRING:

You can find detailed information about what to bring on the website here:

Visitors Information page:<http://www.lalomaviva.com/visitors-information>

These days the weather is very unpredictable, we can let you know closer to the time how things are looking. So far we are having a very mild winter but it could change.

Definitely pack some warm work clothes for the practical sessions outside.

It does get cold at night in Spanish houses, so do bring something warm to sleep in.

We will provide you with all your bedding and towels.

La Loma Viva is a completely off-grid, solar powered project. Wifi is available, but not enough for everyone to be streaming. (So download your Netflix if you need it!)

Looking forward to meeting you soon!
